### **Objective:**

Highly motivated and diligent student pursuing a Bachelor's degree in Computer Science Engineering at KL University, Hyderabad. Committed to gaining practical experience and developing skills in the field of technology to contribute to innovative solutions.

### **Education:**

Bachelor of Technology in Computer Science

KL University, Hyderabad

Expected Graduation: 2026

Secondary School Certificate (10th Grade)

Don Bosco School(CBSE)

Year of Completion: 2020

Percentage: 70%

Higher Secondary Certificate (12th Grade)

Sri Chaitanya Junior College

Year of Completion: 2022

Percentage: 77%

### **Skills:**

- Strong understanding of programming languages: Java, Python, C
- Proficient in software development methodologies and tools
- Solid foundation in data structures and algorithms
- Familiarity with database management systems
- Excellent problem-solving and analytical skills

- Effective communication and teamwork abilities
- Self-motivated and quick learner

**Projects:**

- Smart Garbage Monitoring System: Designed and implemented a prototype for measuring garbage levels periodically, preventing overflow.

**Internship:**

Smart Village Revolution (SVR)

- Conducted surveys in various villages to assess their agricultural needs and challenges.
- Collaborated with a team to design and develop a hydroponics-based prototype for sustainable farming.
- Assisted in implementing and testing the prototype, ensuring its functionality and effectiveness.
- Worked closely with villagers to provide training and support on the adoption of hydroponics techniques.
- Documented project progress, results, and lessons learned for future reference and improvements.

**Certifications:**

- Microsoft Certified Azure Fundamentals
- AWS Cloud Virtual Internship, AWS Academy, 2022

**Additional Information:**

- Date of Birth: 09-12-2004
- Interests/Hobbies: Playing Carroms and listening to music
